

The Sutton Academy

Sixth Form Prospectus

Living to learn. Learning to live.

“Welcome to The Sutton Academy Sixth Form, a thriving, oversubscribed setting where we seek to develop the flair for learning shown by our ambitious students. I hope you will be able to pay us a visit and experience our passion first hand”

David Terry, Principal.

Great learning is not
the filling of an empty
pail but* more the
lighting of a *flame*.

Welcome...

* **to The Sutton Academy Sixth Form - a vibrant, dynamic and work-focused environment where the students are at the heart of everything we do.**

The retention rates from main school are very high which we like to think is a reflection on how safe, happy and valued our students feel and we are also pleased to welcome new students into the family.

We have an exciting selection of A Level, BTEC and vocational courses on offer in a setting designed to put our students one step ahead of the competition, ready for their futures beyond The Sutton Academy.

*A flair** for social skills can make the difference between living life and loving life.

Outside of the curriculum, as students progress to sixth form, our outstanding array of enrichment opportunities are supplemented by valuable social and recreational activities.

We believe in providing our students with knowledge and experience that goes beyond what they can learn in class – after all, life doesn't take place in the classroom.

Our sixth form is a happy, sociable environment where students will truly get back what they put in. The relationships formed with our dedicated and experienced teaching staff – particularly designated tutors – are key to their success at this level. Teachers oversee not only academic progress but also personal development, encouraging the acquisition of skills which will help students succeed in Higher Education and beyond.

If confidence
in yourself and
your abilities
*burns** within you
then the world
is at your feet.

“Students feel well supported. Good transition arrangements ensure that they settle into the sixth form quickly and retention rates are now high.”

Ofsted

Our aim is to help set our students apart in this competitive job market by developing the skillset that employers will be looking for.

A great way to do this is to get involved with volunteer work and participate in our peer mentoring scheme to support newer members of The Sutton Academy family. This all helps in building up social conscience, confidence, communication, team work and initiative.

We have developed links with business partners, community groups and Higher Education providers to help with the integration of students into the next stages of their lives, whether that is university, college or employment. And, whatever their choices, we will send them into the world as responsible and helpful citizens.
