February 2020

Year 10 Partnership Evening – Thursday 5 March

Dear Parent/Carer

Appointments have been emailed and scheduled automatically for parents and you should find that most core subjects of English, Maths and Science have an appointment time stated. The majority of other subjects studied have also been scheduled automatically; although where class sizes are large some students may not have a fixed appointment.

In any circumstance where your child does not have a scheduled appointment with a member of staff you would like to see please check with the member of staff in question on the evening to see if you can meet with them.

As you can imagine parents and teachers have a lot of appointments throughout the evening and so could we please ask you to note :-

Parents try to stick to the scheduled appointment order and times overleaf as best they can.

Appointments are set at four minutes which should enable enough time to discuss your child's progress; please be mindful of this on the evening

If you find any problems with your appointment times please speak to the Year Team.

Kind regards.

Yours faithfully

L Tickle & K Bibby
