

The Sutton Academy

Together Students Achieve

Principal: Mrs Alison Sherman

March 2020

Dear Parents/Carers

We have been informed of a confirmed case of Coronavirus in a parent of a child in Year 7. The Academy have fully consulted with Public Health England and the Local Authority and the Year 7 student is self isolating at home.

The Academy will remain open, however additional cleaning measures have been put in place. We will of course, keep you informed immediately of any changes to advice and procedure.

I can assure you that there are no confirmed cases among our staff or students.

As parents and carers please take the following steps as advised by Public Health England.

- Closely observe your child
- Should your child develop symptoms of a cough or high fever then they must be at home, in isolation for a minimum of 7 days
- Should your child develop the symptoms above, other family members in the home must also self isolate for 7 days
- In this instance, those self isolating must not be on the academy premises and must also observe the advice from Public Health England and keep a physical distance of 1-2 meters contact between individuals
- Ring 111 should any developing symptoms become unmanageable

Please be assured that we have notified you and acted upon this information at the earliest opportunity.

Yours faithfully

Mrs A Sherman
Principal
