

NATALIE MORLEY

My Name is Natalie Morley. I am originally from St Helens and attended local primary and secondary schools (The Sutton Academy, formerly Sutton High being my secondary school). I now work as a Product Manager within Finance, with an agile working schedule which inevitably enables me to have the time to become fully involved as a Parent Governor.

As a mum of one child in the school and another child due to move up next year I am passionate about the role and want to ensure that The Sutton Academy is the best it can be in all aspects of our children's schooling. I want to make sure the voices of all parents with children at The Sutton Academy are heard and that the school can work unanimously and seamlessly with parents. I will strive to do my utmost to not only help with your priorities, concerns and hopes but make certain that these form part of the school's decision making strategy moving forward, ensuring every child is given the support, encouragement and services to make their aspirations become a reality, whatever they may be, no matter how big or how small.

I feel my current role as a Product Manager will help ensure I look at everything in its entirety, building on the existing foundation of the school, making things that are not so right, right and things that are good, great. I want all children to come to school feeling happy, feeling involved, feeling like they are an important part of the school no matter what their abilities or career path.

Outside of my work I personally have a diverse understanding of the local community and services and feel this will benefit not only you as parents but the school as a whole.

If elected I promise I will ensure I give 100% effort, 100% of the time.

Thanks

Natalie
